HOLLYWOOD BURBANK AIRPORT RECEIVES GLOBAL RECOGNITION FOR ITS HEALTH AND SAFETY RESPONSE TO THE COVID-19 PANDEMIC

BURBANK, Calif., June 22, 2021 — Cleaning, disinfecting, and passenger communications during the Covid-19 pandemic are among the measures that have helped Hollywood Burbank Airport earn special accreditation from Airports Council International (ACI) World.

The ACI “Airport Health Accreditation” program is designed to help reassure the traveling public that airport facilities remain safe, and that precautions are being taken to reduce any risk to their health. The program provides airports with an assessment of how aligned their health measures are with [the ACI Aviation Business Restart and Recovery guidelines](#), and [ICAO Council Aviation Restart Task Force recommendations](#), along with industry best practices.

“Hollywood Burbank Airport has shown that it is providing a safe airport experience for all travelers,” says Luis Felipe de Oliveira, Director General, ACI World. “The re-establishment of air travel will be a key driver for a global economic recovery but, to succeed, passengers must have confidence in the industry’s focus on health and welfare.”

Evaluation areas include cleaning and disinfection, physical distancing (where feasible and practical), staff protection, physical layout, passenger communications and passenger facilities.

All passenger areas and processes are considered, including: terminal access; check-in areas; security screening; boarding gates; lounges; retail; food and beverages; gate equipment such as boarding bridges; escalators and elevators; baggage claim area; and arrivals exit.

Hollywood Burbank Airport (BUR) is owned and operated by the Burbank-Glendale-Pasadena Airport Authority, a joint powers agency created in 1977 between the Cities of Burbank, Glendale and Pasadena. More information can be found on the airport’s website, www.HollywoodBurbankAirport.com, and on the airport’s [Facebook](#), [Twitter](#), and [Instagram](#) feeds.
