### **SECOND MAMAVA LACTATION SUITE INSTALLED AT HOLLYWOOD BURBANK AIRPORT IN TERMINAL B**

BURBANK, Calif., October 10, 2018 – The Burbank-Glendale-Pasadena Airport Authority, in partnership with Lamar Alliance Airport Advertising, has installed a second lactation suite for nursing mothers at Hollywood Burbank Airport in Terminal B, across from Gate B4. The unit was delivered by Mamava, a Vermont-based company that produces private, freestanding lactation suites for nursing mothers. The first lactation suite was installed last August in Terminal A and is now located between Gates A4 and A5.

“As the father of four children, I am pleased to see that our Airport can now accommodate traveling nursing mothers in a private and comfortable environment in either terminal while waiting for their flight,” said Airport Authority Commission President Zareh Sinanyan.

The lactation suite is a self-contained, mobile pod with the following features: a bench; side table for pump placement; two interior outlets with USB ports for plugging in breast pumps and charging devices; 60-inch turn around space, mirror, and grab bars for ADA compatibility; motion-activated interior lighting; ceiling vents; and a multi-functional mechanical SmartLock with BlueTooth, allowing access via the Mamava app. Each unit stands 9 feet 5 inches wide, 5 feet 4 inches deep and 7 feet 3 inches high, and weighs 900 pounds.
