**AWARD OF CONTRACT
ACQUISITION OF REPLACEMENT POLICE PATROL VEHICLES**

Presented by Edward B. Skvarna
Chief of Police, Airport Police Department and
Director, Public Safety

SUMMARY

Staff seeks an Operations and Development Committee ("Committee") recommendation to the Commission to authorize a purchase order to National Auto Fleet Group for the acquisition of two replacement Airport Police Department ("APD") patrol vehicles in the amount of \$117,192.73.

Due to the long lead time for acquisition of law enforcement vehicles and the need to acquire the replacement vehicles as soon as possible, subject to the recommendation of the Committee, this item has also been placed on the Commission's agenda for its consideration immediately following the Committees meeting.

BACKGROUND

Currently, APD operates with a fleet of three command vehicles, six patrol vehicles and two utility support vehicles. Two of the APD patrol vehicles have reached the end of their reliable service as emergency vehicles. Unit #103 was purchased and put into service in 2011 and has 127,317 miles. Unit #104 was purchased and put into service in 2011 and has 159,566 miles. These vehicles respond to all emergencies and public assistance calls at the Airport.

At the suggestion of Commissioner Ovrom, APD researched the availability of electric and hybrid-powered systems for patrol vehicle replacements. At the present time, electric vehicles for law enforcement are still primarily in the testing phase. Additionally, although manufacturers have begun producing hybrid powered vehicles for law enforcement, the production and availability of this type of vehicle is being impacted by ongoing supply chain issues. The research into these two alternative powered vehicles for law enforcement is promising and APD has set a goal to move its emergency response vehicles to electric or hybrid power when such units become more readily available. Until then, APD seeks approval to acquire patrol replacement vehicles that are gasoline-powered to replace Units #103 and #104 as soon as possible. Because APD's vehicles are used for the daily routine perimeter inspections and must be able to respond to emergency calls, it is necessary to replace these vehicles as soon as possible with vehicles the manufacturers have in production or inventory.

DETAILS

Through the master vehicle contract #120716-NAF between Sourcewell (formerly known as National Joint Power Alliance) and National Auto Fleet Group, Staff has been able to obtain a value price proposal for replacement gasoline-powered patrol vehicles. The master vehicle contract includes the installation of all emergency lights, control units, and Kevlar ballistic panels. These items are usually an aftermarket separate charge for the equipment and installation that adds approximately \$10,000 to the cost of the vehicle.

Procuring law enforcement vehicles through this master contract is undertaken by a number of other area law enforcement agencies. Some of the law enforcement agencies that participate in this program are: Los Angeles Police Department, LAX Airport Police, Orange County Sheriff's Department, Visalia Police Department, Huntington Beach Police Department, Alhambra Police Department, Orange Police Department, Pomona Police Department, Buena Park Police Department, Costa Mesa Police Department, Fullerton Police Department, and Garden Grove Police Department.

The cost of the two vehicles under this master vehicle contract is \$117,192.73, including sales tax. To complete the vehicle for patrol duty, reflective vehicle decals, and the installation of all radios (interoperable air to ground) recycled from the two units being retired, will be undertaken through separate purchase orders. The estimated cost for the final fit-out is approximately \$2,500 per vehicle.

FUNDING

The costs for two replacement police patrol vehicles are included in the adopted FY 2021/2022 budget.

IMPACT ON OPERATIONS

The proposed replacement vehicles will ensure APD personnel has reliable vehicle equipment that can respond to emergencies on Airport property while carrying out their duties.

STAFF RECOMMENDATION

Staff seeks the Committee's recommendation to the Commission to approve the acquisition of two gasoline-powered replacement APD patrol vehicles utilizing National Auto Fleet Group master contract pricing in the amount of \$117,192.73.
